PROFILE

Frontend Engineer with 3+ years of hands-on experience building modern web applications with Vue.js and TypeScript. I'm passionate about crafting intuitive user interfaces, working asynchronously across time-zones, and contributing to product-driven, long-term remote teams. Keen to join an international company where I can deepen frontend craftsmanship and grow in product/UX collaboration.

TECHNICAL SKILLS

- **Frontend Development:** Vue.js • Nuxt.js • React.js • Next.js • Angular • TypeScript • JavaScript (ES6+) • HTML5 • CSS3
- **State & UI:** Pinia • Vuex • Vuetify • Bootstrap • Tailwind CSS
- **Tools & Workflows:** Git • REST API • GraphQL basics • Figma (UI/UX design) • Jira / Notion / Slack
- **Additional:** Basic React.js awareness, interest in UX/design, teamwork across remote environments

EXPERIENCE

Frontend Developer — Eivan Online

Karaj, Iran | Apr 2025 – Sep 2025

- Developed scalable, mobile-friendly web applications with Vue.js and TypeScript.
- Ensured visual consistency and responsive design across multiple devices.
- Supported rapid product iterations in a fast-paced startup environment using Vuex, Tailwind, and REST APIs.

Frontend Developer — Majara.io

Remote | Aug 2024 – Apr 2025

- Refactored and modernized the admin panel interface to improve clarity and usability.
- Cleaned legacy Vue.js codebase and optimized component performance.
- Collaborated with UI/UX designers to align visuals with the updated brand identity.

Frontend Developer — Gama Train

Remote (Amsterdam HQ) | Apr 2024 – Aug 2024

- Built modern Vue.js web applications with TypeScript, ensuring performance and cross-platform responsiveness.
- Worked within Agile sprints, collaborating remotely across time zones.
- Implemented reusable components and API integrations using Pinia and REST architecture.

Frontend Developer — Cyclical Waves

Karaj, Iran | Jan 2023 – Jun 2024

- Developed high-performance, interactive web applications with Vue.js and TypeScript.
- Integrated real-time cryptocurrency APIs to visualize live market data.
- Applied UX best practices to enhance accessibility, navigation, and design consistency.

EDUCATION

- B.Sc. Computer Engineering – Azad University of Karaj, Iran (2023–Present)
- Relevant coursework: Web Engineering, UI/UX Design, Software Architecture

REMOTE READINESS & LANGUAGES

- **English:** Professional working proficiency — conducted code reviews and UX discussions in English.
- **Remote tools:** Experienced with Slack, Notion, Trello/Jira, GitHub workflows.
- **Availability:** Full-time remote, open to international time-zones; reliable internet and home office setup.

PROFESSIONAL GOAL

Seeking a long-term position as a remote Frontend Engineer where I can deepen my Vue.js & TypeScript expertise, participate in product lifecycle from design to deployment, and grow toward a future product-centric role.
